#### THERE IS NO SUBSTITUTE FOR EXPERIENCE

Northstar Funding Partners (NSFP) operates solely as a life insurance premium finance loan facilitator operating in a wholesale capacity. At no time does NSFP solicit retail clientele for any product or service. It is the responsibility of general agencies, their equivalents and agents to recommend specific products and facilitate underwriting and other processes required for policy issuance. Furthermore, these entities and agents will be presenting information and making recommendations to insured, borrowers and guarantors, as to the application of financing/debt as a method to fund all or a portion of the scheduled premiums. NSFP is a specialist, at the wholesale level and will not directly advise insureds or other parties involved in the transaction.
